Fixed Issues

Japanese display problem

(CDQE-57335) Japanese strings on the Machine Learning Model Management Model Analysis page do not display correctly.

Installation

To install this product update you must have Spectrum™ Technology Platform 12.0 installed.

Important: Before you install this product update, be sure that you have installed all previously-released product updates for your modules and the platform. Unexpected issues may occur if you do not install product updates in the proper order. For a listing of product updates for each module and the platform, see the [Product Update Summary](#) on support.pb.com/spectrum.

Applying This Product Update to a Cluster

To apply this product update to a cluster, install the product update to each node by following the instructions in these release notes. You can apply the product update to one node at a time without stopping all the nodes in the cluster.

Installing on Windows

Note: In this procedure, *SpectrumFolder* refers to the folder where you have installed the Spectrum™ Technology Platform server.

1. Stop the Spectrum™ Technology Platform server. To stop the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Stop Spectrum™**. Alternatively, you can use the Windows Services control panel and stop the Pitney Bowes Spectrum™ Technology Platform service.
2. Back up this file to a different location:

SpectrumDirectory/server/app/deploy/machinelearning.war

3. Download the zip file containing the patch from www.g1.com/support.
4. Extract the contents of the zip file to a temporary location.
5. Extract the resulting zip file (cdq1200S07.zip) to the folder where you installed Spectrum. For example, C:\Program Files\Pitney Bowes\Spectrum.

Choose to overwrite the existing files.

6. Start the Spectrum™ Technology Platform server. To start the server, right-click the Spectrum™ Technology Platform icon in the Windows system tray and select **Start Spectrum™**. Alternatively, you can use the Windows Services control panel to start the Pitney Bowes Spectrum™ Technology Platform service.

Installing on Linux

Note: In this procedure, *SpectrumDirectory* refers to the directory where you have installed the Spectrum™ Technology Platform server.

1. Source the *SpectrumDirectory/server/bin/setup* script.
2. Run the *SpectrumDirectory/server/bin/server.stop* script to stop the Spectrum™ Technology Platform server.
3. Back up this file to a different location:

SpectrumDirectory/server/app/deploy/machinelearning.war

4. Download the zip file containing the patch from www.g1.com/support and extract the contents to a temporary location.
5. FTP the cdq1200S07.tar file in binary mode to a temporary directory on the Spectrum™ Technology Platform machine.
6. Change to the directory where Spectrum™ Technology Platform is installed.
7. Untar the file using this command:

```
tar -xvf TemporaryDirectory/cdq1200S07.tar
```
8. Run the *SpectrumDirectory/server/bin/server.start* script to start the Spectrum™ Technology Platform server.
